Statement of Qualifications

DUNS # 007307650

Capabilities & Expertise

CAGE # 3BBV4

Current-C Energy Systems has been providing client-focused energy efficiency and renewable energy services since 1996. We deliver our services by teaming with the best partners for each project, and specialize in creating cost-effective solutions to be implemented in stages. Our holistic solutions often include financing and training. Our products assist buildings and organizations to be more "green" and reduce costs.

Current-C is a (presently self-certified) Woman Owned Small Business, and a DBE.
